

## SALT FOG TESTING

Cascade TEK uses accredited methods to test corrosion resistance in harsh environments. Salt Fog Testing is also an excellent way to test the permeability of coatings and seals.

Cascade TEK can provide scribing and taping of samples to meet ASTM D1654 and ASTM D3359.

Custom test duration, visual inspection and photos of units under test can all be tailored to your requirements.

Cascade TEK is an accredited test lab and conforms to international standards for salt spray tests.

### POPULAR SALT FOG TESTS:

- ASTM B117 Salt Fog
- ASTM D1654 Procedure A: Corrosion Resistance
- ASTM D3359 Test Method A: Coating Adhesive
- MIL-STD 810F
- MIL-STD 202G
- MIL-STD 883
- MIL-STD 1344A
- RTCA DO-160
- IEC 68 Part 2
- SAE J1455
- SAE J2334
- SAE J 1211
- GM 9540P
